Overview

- Admin.
- Lab: Git.
- Lab: Simple Code Reading (more or less).
- Reflection.

Admin

- Partner assignments are up. For the first few days, I’m using a simple algorithm for partner assignment. (Can you tell what it is?)
- No Clicker Questions today.
- I think today will be the last day that I take attendance. Afterwards, I’ll start wandering around the room and trying to remember everyone’s name.
- Reading 1 for tomorrow: Basic Java for C Programmers
- Reading 2 for tomorrow: Unit Testing and JUnit. (Warning - I’m in the process of rewriting this reading.)
- CS Table this Friday: Alan Turing’s “Computing Machinery and Intelligence”. Let me know if you want a copy.
- There are two labs today, but I don’t have both of them linked well. Try using today’s outline to get the links.
- EC Opportunities
  - CS Table, Friday: Turing on AI

Lab: Git (under Eclipse)

Lab: Simple Code Reading (more or less)
